

AMROCK

# PROJECTS-FOCUSED COMPANY PROFILE

Industrial Products | EPC Support | Infrastructure Solutions | Digital Infrastructure

A multi-vertical execution platform focused on project management, site coordination, partner manufacturing, installation accountability and future-ready infrastructure delivery.

**AMROCK Projects & Execution Overview**  
One brand. Multiple industrial project capabilities.

AMROCK operates as a project management and execution platform for industrial, infrastructure, government and other projects. Our strengths lie in operating, construction, engineering, EPC, EPC support, installation, operation, maintenance, instrumentation and EPC support services.

**Project Solutions Universe**

EPC Platforms & Solutions	Industrial Turnkey	EPC & O&M
Process, IT Enhancement & Data Center	EPC & Start-Up	Process Infrastructure & Civil Construction
SEP, CMF, CMATP	Large Scale, EPC & Start-Up	AMROCK EPC & Future Production

**The AMROCK Way**

1. Client Engagement 2. Design 3. Execution 4. Operation 5. Maintenance

**Core Competency: Design, Execution, Operation, O&M Support, Project Management, Construction, Execution, Commissioning & Handover.**

**Sectors Served**

- Oil & Gas Refineries
- Power Plants
- Water Treatment Plants
- Industrial Parks
- Government & Residential
- Industrial Complexes
- Water & Wastewater Effluent Treatment
- Organic Chemicals
- Specialty Chemicals
- Pharmaceuticals
- Food Processing

AMROCK combines execution discipline, industrial understanding and partner engagement delivery to help clients complete complex projects with confidence.

www.amrock.in | www.amrockproject.com

**AMROCK Oil & Gas Infrastructure**  
Local execution platform for drilling, infrastructure, O&G works, industrial utilities and EPC support.

**Overview**  
AMROCK is actively engaged in industrial production, construction and delivery of major projects with the oil and gas sector across India. With engineering, construction, operation, maintenance and a wide execution range projects.

**Our Scope**  
We work on the construction and development, Design, Commissioning, Start-up, O&M, and maintenance of industrial, infrastructure, and utility projects. We provide EPC, EPC support, and installation, O&M, and maintenance, EPC and start-up services.

**KEY CAPABILITIES**

- EPC EPC Execution
- O&G Works
- Oil & Gas Refineries
- Industrial EPC
- Process Infrastructure
- EPC Industrial Utilities
- Water Treatment
- Food Processing

**EXECUTION STRENGTH**

- Industrial Site Overlap
- Strong & Robust Project Execution
- Execution & Reporting
- Site Requirements
- Turnkey Delivery Model

**PARTNERSHIP OPPORTUNITY**

AMROCK welcomes strategic collaborations with international & local companies, EPC contractors, EPC support providers looking to enter or expand in India.

AMROCK combines local execution strength with global discipline to support critical oil & gas infrastructure projects.

www.amrock.in | www.amrockproject.com

**AMROCK Infocom, IT Infrastructure & Data Centre Solutions**  
Robust digital infrastructure for industrial, government and institutional environments.

AMROCK has actively supported its capabilities in Infocom, IT Infrastructure, Data Center, Cloud Computing, Security, EPC, Operation, Maintenance, Installation and Commissioning projects with an end-to-end approach. We provide end-to-end and future-ready technology infrastructure.

**Our Infocom & IT Infrastructure Solutions**

Cloud Computing & Network Architecture & Data Center	Infrastructure Cabling Services	Data Center Management	Server Room
Network Integration & Security	Industrial Communication Infrastructure	System & Storage	Cloud Infrastructure
Network Setup & Maintenance	Cloud Migration & Integration	System Integration	Digital Transformation

**Core Competency: Design, Execution, Commissioning, Vendor Management, Construction, Commissioning & Handover.**

**Execution Expertise**

- Industrial & Residential
- Construction & Project Management
- Industrial & Residential
- Industrial & Residential
- Industrial & Residential
- Industrial & Residential

**Why Global Partners Work With AMROCK**

- Strong local execution capabilities
- Industrial project execution across India
- Global operational network
- Operational excellence across the globe
- Operational excellence across the globe
- Operational excellence across the globe

AMROCK continues to build technology ecosystems that support India's industrial, institutional and digital transformation journey.

www.amrock.in | www.amrockproject.com

**AMROCK AI & Future Innovation**  
Robust digital infrastructure for industrial, government and institutional environments.

AMROCK AI ecosystem will focus on building intelligent solutions for the future. We are actively working on AI, ML, Cloud, IoT, and other technologies to build a robust digital infrastructure for industrial, government and institutional environments.

**GateAI**  
Industrial AI solution for process optimization and predictive maintenance.

**Industrial Movement**  
AI-powered solution for industrial site management and safety.

**Voice Tower**  
AI-powered solution for customer service and support.

AMROCK is building future-ready concepts that connect physical infrastructure with digital intelligence.

# Profile Index

Projects-focused profile with high-density visual pages and reduced blank space.

01	AMROCK Projects & Execution Overview	07	STP, WTP & Wastewater Infrastructure
02	FRP Platforms & Structures	08	HVAC, Clean Air & Specialized Electrical
03	Industrial Signage	09	Infocom, IT Infrastructure & Data Centre
04	Oil & Gas Infrastructure	10	AMROCK AI & Future Innovation
05	PEB & Steel Structures	11	Project Management & Collaboration
06	Precast Infrastructure & Civil Constructio	12	Contact AMROCK

## CORE FOCUS

### Project Management + Execution Accountability

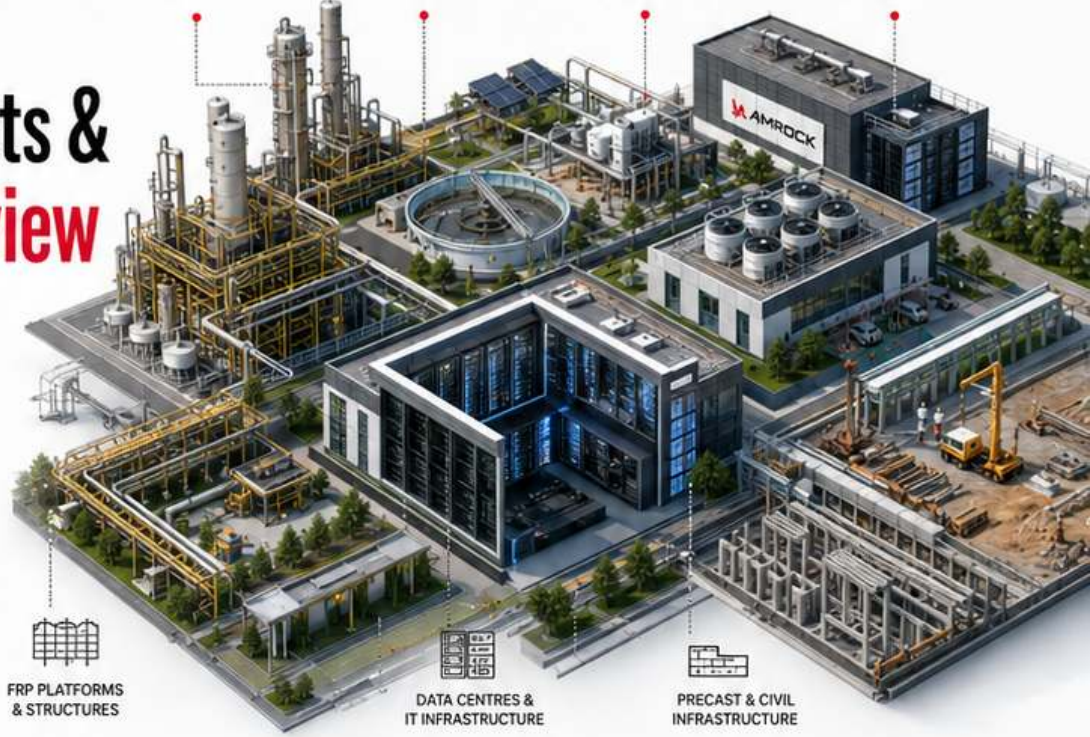

- Survey and requirement mapping
- Design and engineering coordination
- Manufacturing / partner production control
- Site execution, QC, documentation and handover

PROJECTS | EXECUTION PLATFORM

# AMROCK Projects & Execution Overview

One brand. Multiple industrial project capabilities.

AMROCK operates as a project management and execution partner for industrial, institutional, government and infrastructure projects. Our strength lies in planning, coordination, engineering support, vendor management, manufacturing interface, installation supervision, documentation and handover accountability.

## Project Solution Universe

FRP Platforms  
& Structures

Industrial  
Signage

Oil & Gas  
Infrastructure

Infocom, IT Infrastructure  
& Data Centres

PEB & Steel  
Structures

Precast Infrastructure &  
Civil Construction

STP / WTP / WWTP

HVAC, Clean Air &  
Specialized Electrical

AMROCK AI &  
Future Innovation

**Core Competency:** Survey, Design Coordination, BOQ Support, Procurement Coordination, Execution Management, Quality Control, Documentation, Commissioning & Handover.

6

After-Sales &  
Support

## Sectors Served

- ✓ Oil & Gas / Refineries
- ✓ Power Plants
- ✓ Industrial Campuses
- ✓ Government Infrastructure
- ✓ Institutional Campuses
- ✓ Water & Wastewater Utilities
- ✓ Warehouses & Manufacturing Facilities
- ✓ Smart Infrastructure

**AMROCK** combines execution discipline, industrial understanding and partnership-driven delivery to help clients complete complex projects with confidence.

PROJECTS | FRP STRUCTURES

# FRP Platforms & Structures

Industrial walkways, structures and corrosion-resistant access systems.

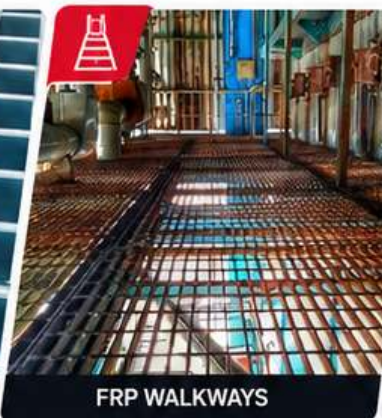

At AMROCK, FRP platforms are not treated as catalogue products. Every industrial walkway, access platform, staircase, handrail and structural system is engineered around actual site conditions, load requirements, chemical exposure, safety needs and long-term maintenance expectations.

In corrosive environments, the real comparison between steel and FRP is not only initial cost. FRP reduces recurring maintenance associated with corrosion, repainting, shutdowns and replacement, making it a practical long-term ownership solution.

## Key Capabilities

- ✓ FRP Platforms
- ✓ FRP Walkways
- ✓ FRP Gratings
- ✓ FRP Handrails
- ✓ FRP Ladders
- ✓ FRP Manhole Covers
- ✓ Rooftop Solar Walkways
- ✓ OEM FRP Manufacturing

## Featured Product Range

**Execution Strength:** Engineering support, manufacturing coordination, site installation and long-term performance focus.

**AMROCK** delivers corrosion-resistant FRP systems that combine safety, durability and execution practicality.

# Industrial Signage

Turnkey communication infrastructure for safety, wayfinding, compliance and asset mapping.

AMROCK delivers turnkey industrial and institutional signage systems covering survey, design, prototype development, manufacturing, installation, documentation and future maintenance directories.

Industrial signage is not merely about boards. It is a complete communication ecosystem that improves plant safety, navigation efficiency, emergency response, equipment identification, regulatory compliance, workforce awareness and visitor movement management.

## Execution Process

## Key Capabilities

- ✓ Industrial Wayfinding
- ✓ Safety Signage
- ✓ OISD-Focused Signage
- ✓ Reflective Boards
- ✓ Emergency Communication Boards
- ✓ Institutional Signage
- ✓ Urban Mobility Signage
- ✓ Signage Directory Systems

## Project References

-  ONGC Hazira Plant
-  GAIL Gandhar
-  Diu Smart Mobility Project
-  IIT Gandhinagar

## Core Strength:

Process-driven execution from survey to final installation and maintenance-ready documentation.

**AMROCK** builds signage systems that communicate clearly, improve safety and support long-term facility management.

PROJECTS | OIL & GAS

# Oil & Gas Infrastructure

Local execution platform for drilling infrastructure, GGS works, industrial utilities and EPC support.

## Overview

AMROCK is actively engaged in executing infrastructure, construction and industrial support projects within the oil and gas sector across India. With engineering capability, experienced project management and a reliable execution ecosystem, we support upstream and industrial energy projects.

## Our Scope

Our scope includes drill site construction and development, Group Gathering Station works, civil and mechanical construction, heavy equipment foundations, structural foundation, industrial utility infrastructure, mechanical fabrication and installation, FRP industrial solutions, signage and EPC support services.

## KEY CAPABILITIES

Drill Site Development

GGS Works

Civil & Mechanical Construction

Industrial Utility Infrastructure

Mechanical Fabrication

FRP Industrial Solutions

Oilfield Support Services

JV & Technology Partnerships

## EXECUTION STRENGTH

- ✓ Industrial HSE Discipline
- ✓ Vendor & Subcontractor Coordination
- ✓ Documentation & Reporting
- ✓ Site Supervision
- ✓ Timely Delivery Focus

## PARTNERSHIP OPPORTUNITY

AMROCK welcomes strategic collaborations with international oil & gas companies, drilling contractors, OEMs, EPC companies and specialized technology providers looking to enter or expand in India.

**AMROCK** combines local execution strength with industrial discipline to support critical oil & gas infrastructure projects.

# PEB & Steel Structures

Fast, scalable and engineered building systems for industrial and infrastructure development.

AMROCK provides PEB and steel structure solutions for oil & gas facilities, power plants, institutional buildings, chemical and fertilizer industries, warehouses, process plants, infrastructure developments and industrial manufacturing facilities.

Our scope covers engineering coordination, structural detailing, fabrication management, supply, erection, project execution and on-site management. We execute projects ranging from industrial sheds and heavy structural frameworks to process platforms, equipment support structures, utility buildings and customized industrial infrastructure.

### KEY CAPABILITIES

-  PEB Industrial Sheds
-  Heavy Steel Structures
-  Structural Fabrication
-  Erection & Installation
-  Process Platforms
-  Equipment Support Structures
-  Utility Buildings
-  Industrial EPC Support

### WHY PEB

-  Faster execution
-  Optimized cost
-  Reduced civil dependency
-  Scalable infrastructure
-  Efficient manufacturing process

**Core Strength:** Engineering coordination, fabrication interface, erection planning and execution discipline.

**AMROCK** delivers steel solutions that balance speed, scalability and industrial practicality.

# Precast Infrastructure & Civil Construction

Future-ready construction systems for speed, quality and scalable infrastructure delivery.

India's construction landscape is changing rapidly. Speed, precision, quality control and scalable execution are becoming the foundation of modern infrastructure. Precast construction is emerging as one of the most powerful solutions for faster and more reliable project delivery.

## Precast Infrastructure

Precast technology allows building components to be manufactured in a controlled environment and installed at site with greater speed and consistency. This reduces dependency on conventional site-based construction, minimizes delays, improves finishing quality and helps complete projects within tighter timelines.

- ✓ Precast Boundary Walls
- ✓ Precast Wall Panels
- ✓ Industrial Precast Structures
- ✓ Drainage & Utility Elements
- ✓ Modular Construction
- ✓ Mould Systems
- ✓ Installation Methodology
- ✓ Technology Transfer Partnerships

## Civil Construction

AMROCK's civil construction capability is built around practical execution. Our experience extends across oil and gas, power, institutional, government and private infrastructure projects where timelines, quality and safety standards are critical.

- ✓ Site Development
- ✓ Industrial Foundations
- ✓ Civil Construction
- ✓ Structural Works
- ✓ Government Projects
- ✓ Utility Infrastructure
- ✓ Documentation
- ✓ HSE Compliance

**Execution Strength:** Planning, logistics, quality control, manpower supervision and coordinated site management.

**AMROCK** supports modern infrastructure delivery through practical precast and civil execution capability.

PROJECTS | WATER & WASTEWATER

# STP, WTP & Wastewater Infrastructure Solutions

Water, wastewater and utility infrastructure support for sustainable industrial growth.

 WATER TREATMENT	 WASTEWATER MANAGEMENT	 WATER RECYCLING	 ENVIRONMENTAL SUSTAINABILITY	 AUTOMATION & MONITORING	 COMPLIANCE & RELIABILITY
--	--	--	---	--	---

Water management is becoming one of the most critical infrastructure challenges for modern industries, institutions, urban developments and government projects. Sustainable growth depends on responsible water treatment, wastewater recycling, environmental compliance and efficient utility management.

AMROCK is actively involved in STP, WWTP, WTP and utility infrastructure solutions designed to support long-term industrial and environmental sustainability. Our focus is not limited to equipment supply. We support utility planning, infrastructure coordination, engineering assistance, installation management, operational support and long-term project reliability.

**Key milestone:** successful setup and ongoing operation support of a 3 MLD water treatment-related plant at Jamjodhpur Village for a government project.

### Key Capabilities

 STP	 Pumping Networks
 WWTP	 Utility Piping
 WTP	 Environmental Infrastructure
 Water Recycling	 Automation & Monitoring
 Effluent Management	

### Execution Focus

	Planning & Coordination
	Installation Management
	Utility Integration
	Documentation
	Operator Support
	Reliability & Compliance

**AMROCK** supports sustainable growth through dependable water and wastewater infrastructure execution.

PROJECTS | HVAC & ELECTRICAL

# HVAC, Clean Air & Specialized Electrical Engineering

Engineered air, utility and electrical systems for performance-driven industrial environments.

Modern industries are no longer looking for basic electrical or HVAC contractors. Today's industrial and infrastructure environment demands intelligent engineering systems that improve operational efficiency, reduce energy consumption, enhance environmental control and deliver long-term reliability.

AMROCK focuses on specialized HVAC, engineered air systems, energy-efficient utility solutions and advanced electrical infrastructure for industrial, institutional, commercial and process-oriented applications.

## Key Capabilities

Industrial HVAC

Engineered Ventilation

Clean Air Systems

Process Cooling

Exhaust Systems

Specialized Electrical

Energy Saving Systems

Automation-Linked Infrastructure

## Execution Priorities

- ✓ Energy Efficiency
- ✓ Airflow Management
- ✓ Utility Optimization
- ✓ Safety & Compliance
- ✓ Reliability
- ✓ Maintenance Efficiency

AMROCK welcomes collaborations with international HVAC companies, utility engineering firms, industrial automation companies, clean air technology providers, energy optimization specialists and advanced electrical infrastructure companies.

AMROCK delivers engineered air, utility and electrical systems aligned with performance, safety and long-term reliability.

PROJECTS | DIGITAL INFRASTRUCTURE

# Infocom, IT Infrastructure & Data Centre Solutions

Reliable digital infrastructure for industrial, government and institutional environments.

AMROCK has steadily expanded its capabilities in Infocom, IT Infrastructure Development, Data Centre Solutions, OFC Networking and Digital Infrastructure Execution. We support industrial, government and institutional projects with practical execution strength, reliable coordination and future-ready technology infrastructure.

## Our Infocom & IT Infrastructure Services

- |  |   |  |  |
|--|---|--|--|
|  OFC Laying & Networking                   |  Structured Cabling Solutions                |  Data Centre Infrastructure Support           |  Server Room Development                          |
|  Network Architecture & System Integration |  Industrial Communication Infrastructure     |  Surveillance & Security System Integration   |  Cloud Infrastructure Support                     |
|  IT Infrastructure Setup & Maintenance     |  Smart Infrastructure Connectivity Solutions |  Control Room & Command Centre Infrastructure |  Digital Infrastructure for Industrial Facilities |

**Core Competency:**  
Project Management, Execution, Coordination, Vendor Management, Documentation, Commissioning & Handover.

### Execution Expertise

- Industrial IT Infrastructure
- Government Digital Infrastructure Projects
- Institutional Network Development
- Data Centre Support Infrastructure
- Smart Monitoring & Surveillance Systems
- Enterprise Communication Systems
- Industrial Automation Connectivity

Security, reliability and execution discipline remain at the core of AMROCK's approach. Our team works closely with clients to build resilient infrastructure ecosystems aligned with operational needs, scalability, cybersecurity considerations and future technological expansion.

### Why Global Partners Work With AMROCK

- Strong local execution capabilities
- Industrial project exposure across India
- Skilled deployment support
- Vendor and subcontractor management
- Government and industrial sector familiarity
- On-ground project coordination

**AMROCK** continues to build technology ecosystems that support India's industrial, institutional and digital transformation journey.

PROJECTS | FUTURE INNOVATION

# AMROCK AI & Future Innovation

Industrial intelligence for access control, movement, public interaction and smart infrastructure.

AMROCK AI represents our future-facing innovation direction. The focus is to use artificial intelligence, voice systems, automation, navigation, safety workflows and digital infrastructure to solve real industrial movement and public interaction problems.

AI & ANALYTICS

VOICE & INTERACTION

AUTOMATION & WORKFLOWS

DIGITAL INFRASTRUCTURE

SMART MOBILITY

SAFETY & COMPLIANCE

**AI COMMAND CENTRE**  
Real-time visibility of people, vehicles and assets

**VOICE TOWER**  
AI voice assistant for information, navigation & help

**SMART MOVEMENT**  
AI-powered navigation and wayfinding

**GATEAI CHECK-IN**  
QR scan, document verification & visitor registration

**SAFE & FAST ACCESS**  
Seamless entry with safety compliance and approvals

PEOPLE VISIBILITY   VEHICLE TRACKING   SAFETY FIRST   WORKFLOW AUTOMATION   DATA INSIGHTS   SMART INFRASTRUCTURE

**GateAI**

A smart gate pass, visitor verification and plant navigation system for refineries, oil & gas facilities, industrial plants and large campuses. It can combine document scanning, voice interaction, host approval, QR passes, safety induction and internal navigation.

Visitor Check-in: SCAN QR CODE

Visitor Pass: John Smith, CONSTRUCTOR, APPROVED

To Control Room: 350 m

**Industrial Movement Intelligence**

Focused on reducing waiting time, improving safety compliance, giving real-time visibility of people and vehicles inside facilities, and helping visitors or contractors reach the right location without confusion.

LIVE MOVEMENT: People 256, Vehicles 48, Alerts 02

**Voice Tower**

A smart interactive lighting pole with AI voice assistant for public spaces, parks, campuses, streets and industrial facilities. It can support navigation, directory lookup, weather information, emergency help, public communication and smart city integration.

Where is Control Room?  
It's 300 meters straight ahead.

UNIFIED INTELLIGENCE. CONNECTED INFRASTRUCTURE.

**KEY POSSIBILITIES**

- QR-based movement control
- Safety induction workflow
- Host approval & approval routing
- Real-time navigation
- Voice interaction
- Emergency assistance
- Public communication
- Smart infrastructure integration

**ACCESS OVERVIEW**: 1,256 Today (+12%)

**APPROVALS**: 92% Completed

**LIVE MOVEMENT MAP**

**ALERTS & INCIDENTS**: PPE Compliance Warning, Restricted Area Alert, Emergency Assistance

**VOICE INTERACTIONS**: Today 482

FUTURE-READY INFRASTRUCTURE   ENHANCED SAFETY & COMPLIANCE   OPERATIONAL EXCELLENCE   BETTER EXPERIENCE FOR VISITORS   DATA-DRIVEN DECISIONS

AMROCK is building future-ready concepts that connect physical infrastructure with digital intelligence.

**AMROCK**
